AI Disruption is coming

Everyone is impacted and including entrepreneur and startup-er.

You've probably heard in the news about:

- Chat-GPT, a conversational chatbot
- MidJourney, Dall-E and some others creating and editing images
- Piggy to create website

Add you own...

This is an experiment

Use it at your own peril!

Tokenizing Equities

What does it mean ?

Let's brainstorm with Chat-GPT

Let's create a business

IA tools can help us generate content:

- Chat GPT will explore with us ideas,
- Let's use piggy.to to create some content,
- midjourney.com can also help us to create some stunning image.

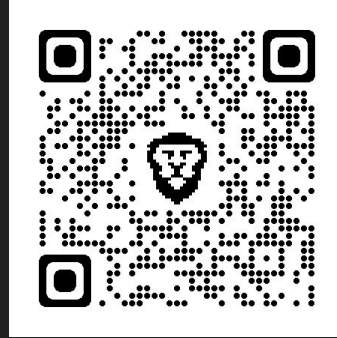

Writing the smart contracts

What can Chat GPT do ?

<https://platform.openai.com/examples>

Maybe it can writes smart contracts for us...

Again,

Use it at your own peril!

Questions & Feedbacks ?!
